

## **Topic: ELESTA also represented in the Slovak Republic now**

Dear Systempartner,  
dear Customer,

we are pleased to inform you that with effect to 01. July 2006 the company ESM YZAMER is acting as System partner of the ELESTA building automation in the Slovak republic.

As designer, erector and operator of numerous heat transfer stations ESM YZAMER looks back on an experience of many years within the range of the energy management and building automation. With a first common project (heat transfer station 300kW) the product series Controlesta RCO is already used.

In the picture from right to the left:  
Robert Stefanec, responsible Project Manager ESM YZAMER,  
Emil Izakovic, Managing director ESM YZAMER,  
Torsten Szypulski, Sales and Marketing director ELESTA building automation

We wish a good start to the ESM Yzamer team as ELESTA System partner.

Yours  
**ELESTA GmbH**
